**May 8 parent information meeting**

**Middle School Students and Technology: Do You Know What Your Child is Doing Online?**

With all that has been in the media lately, have you thought about your own child's online activities? School District 16 and the staff of Westwood Middle School feel that it is crucial that students and parents are aware of how to safely use the technology available both inside and outside of school.

In April, Westwood Middle School students completed a survey on their use of the Internet. Parents, as well, have been asked to participate in an online survey.

Now, School District 16 technology staff and Westwood Middle School administrators will share the results of the survey with parents as well as provide resources on how to work with your child to ensure online safety. "Middle School Students and Technology. Do You Know What Your Child is Doing Online?" a parent information meeting, will take place on Monday, May 8, 6:30 to 8:00 pm, in the school's media center, 711 91st Avenue NE, Blaine.
